100% hyaluronic acid for instantaneous removal of wrinkles

### ●●● THE FACTS

Hyaluronic acid is a natural, major component of our skin. Its **hydrating, lubricating and viscoelastic properties** make the face **well-rounded**, smooth and well-defined. These qualities deteriorate with age: the **upper and lower cheeks** become sunken, wrinkles appear and the face's oval shape is lost, affecting its overall harmony.

### ●●● THE SOLUTION

TEOSYAL® - hyaluronic acid-based, resorbable and of non-animal origin, compensates for this loss.

### ●●● THE RESULTS

There are seven different formula's **to treat each indication** by means of a virtually painless injection: **banish** deep, fine wrinkles, **remodel your face to add volume, plump and redefine your lips** and **rehydrate** your skin **deep down**.

The result is immediate and natural. Your skin remains smooth and supple. The cumulative effect of multiple sessions produces an optimal result.

1

## TEOSYAL FILLS

TEOSYAL® is injected under the wrinkle to lift it from the inside and make it disappear instantaneously, thanks to the volume created.

2

## TEOSYAL LIFTS

TEOSYAL® has an immediate lifting and volume-producing effect, **providing an alternative to surgery**. It enables **the curves and** contours of the face to be redefined.

## TEOSYAL REHYDRATES

Each molecule can hold up to 1000 times its weight in water. TEOSYAL® **provides in-depth rehydration for your skin**.

TEOSYAL®'s viscoelastic properties enable hyaluronic acid gels to be perfectly absorbed into the skin tissue, respecting tissue suppleness to provide total effectiveness and a natural result.

There's no reason why you shouldn't continue with your social life immediately after an injection.

### ••• IMMEDIATE, NATURAL RESULTS

TEOSYAL® gels are effective in preventing and instantaneously correcting wrinkles and hollows whilst remaining perfectly in keeping with your personality and facial features. **The viscoelastic and rehydrating properties of TEOSYAL® restore all the suppleness, elasticity and tone to your skin.**

#### Immediately visible correction

- After just one session, wrinkles are instantly filled out, disappearing or remaining only superficially visible.
- The result is natural, with optimum, effective correction.

After 3 months

### ••• OPTIMUM SAFETY

TEOXANE's commitment to supplying the best hyaluronic acid ensures absolute product quality and safety for the patient. TEOSYAL® guarantees that its gels are **extremely pure**, far beyond the standards required by legislation. This purity is the guarantee of exceptional tolerance and perfect integration into skin tissue.

### ••• LONG-LASTING, CUMULATIVE EFFECTS

Results are immediately visible. In order to optimise the achieved result, it is important to abide by the treatment protocol recommended by the practitioner, which may vary between 1 and 3 initial sessions. The lasting effect of TEOSYAL® is increased with successive sessions. In order to maintain the results achieved, additional maintenance sessions will be required. Less of the product will be necessary, thanks to the truly cumulative effect of the sessions.

questions about the treatment:  
before, during, after

## ••• What can be treated with Teosyal?

- **Filling** wrinkles and lines
- **Remodelling cheekbones and softening the contours of the face**
- Increasing and remodelling **lip volume** with an in-depth rehydrating effect
- Revitalising and rehydrating **the skin**
- **Preventing the appearance of wrinkles and lines** even in the most sensitive areas such as the neck and neckline.

## ••• Are there any contra-indications?

TEOSYAL® injections are not advised for pregnant or breastfeeding women or for people with known hypersensitivity to hyaluronic acid, autoimmune disease or other diseases affecting the immune system.

During the week prior to the injection, the use of high doses of aspirin, anti-inflammatory painkillers and anticoagulants is strongly discouraged. During the days following the injection, exposure to extreme temperatures should be avoided (intense cold, saunas, UVs and the sun).

## ••• Session procedure

The injection session **lasts** an average of thirty minutes. If you are sensitive to injections, particularly when treating the sensitive lip area, your practitioner may suggest an anaesthetic cream or local anaesthetic to completely **numb the area to be injected**.

## ••• What can be felt and seen after the session?

**The desired result is immediately visible.** Slight discomfort or swelling and a little redness may appear at the points of entry. Thanks to the high purity of TEOSYAL®, all these problems generally lessen within 3 hours and disappear completely within an average of 24 hours.

If you have any other questions with respect to recommendations, contra-indications, side effects, etc. Teoxane invites you to use the tear-off slip at the end of this document

BEFORE

AFTER

Deep furrows are treated with TEOSYAL® Deep Lines, upper cheeks and lower eyelids with TEOSYAL® Ultra Deep.

When treated with TEOSYAL® Ultra Deep, facial hollows are filled out, and the proper shape of the upper cheeks facial lines stand out once again.

Combined use of TEOSYAL® Ultra Deep and TEOSYAL® Global Action corrects deep furrows and restores facial volume.

BEFORE

AFTER

TEOSYAL® Kiss reshapes and plumps lips and erases lines.

The face looks naturally well, furrows are greatly reduced and shadows and hollows around the cheekbones disappear with the use of TEOSYAL® Deep Lines and TEOSYAL® Ultra Deep.

When treated with TEOSYAL® Ultra Deep and TEOSYAL® Global Action, the bottom of the face is naturally remodelled, with wrinkles filled in and volume restored.
